

Third Sector Substance Use Strategic Group

Voluntary Action Angus (VAA) is inviting expressions of interest from senior managers and decision-makers within Third Sector organisations across Angus to join a new Third Sector Substance Use Strategic Group.

This group will provide a strong and unified Third Sector voice in local substance use planning and delivery, directly feeding into the Angus Alcohol and Drug Partnership (ADP) and the ADP Commissioning Group.

The aim is to strengthen collaboration, influence strategic priorities, and ensure that the experiences and expertise of the Third Sector shape local approaches to prevention, recovery, and support.

We are looking for representatives who:

- Hold a strategic or leadership role within a Third Sector organisation.
- Have experience or an active interest in substance use, recovery, or related areas (e.g. mental health, family support, youth work, community wellbeing).
- Are committed to collaborative working and co-production across the sector and with statutory partners.

Meetings will be facilitated by Voluntary Action Angus.

If you would like to be part of this strategic group, please email:
